

- Cytokine Signaling in Immune system
- HALLMARK TNFA SIGNALING VIA NFKB
- HALLMARK MTORC1 SIGNALING
- Cholesterol metabolism with Bloch and Kandutsch Ri
- tube morphogenesis
- protein maturation
- Metabolism of lipids
- Pathways in cancer
- HALLMARK INTERFERON GAMMA RESPONSE
- HALLMARK EPITHELIAL MESENCHYMAL TRANSIT
- Protein processing in endoplasmic reticulum
- Extracellular matrix organization
- positive regulation of cell migration
- embryo development ending in birth or egg hatching
- enzyme-linked receptor protein signaling pathway
- regulation of cell projection organization
- VEGFA VEGFR2 signaling
- protein catabolic process
- Neutrophil degranulation
- carboxylic acid metabolic process
