

- Cytokine Signaling in Immune system
- HALLMARK MTORC1 SIGNALING
- HALLMARK TNFA SIGNALING VIA NFKB
- Cholesterol biosynthesis
- Metabolism of lipids
- HALLMARK EPITHELIAL MESENCHYMAL TRANSIT
- tube morphogenesis
- protein maturation
- organic hydroxy compound metabolic process
- Transport of small molecules
- enzyme-linked receptor protein signaling pathway
- HALLMARK INTERFERON GAMMA RESPONSE
- VEGFA VEGFR2 signaling
- Vesicle-mediated transport
- carbohydrate derivative biosynthetic process
- TNF signaling pathway
- Extracellular matrix organization
- response to hormone
- Pancreatic cancer subtypes
- Neutrophil degranulation
